2013 Annual Report
Summary
The Lincoln-Omaha-Council Bluffs Association of Transportation Engineers (LOCATE), a local chapter of the Missouri Valley section of ITE (MOVITE), is a society of transportation professionals with members from eastern Nebraska and western Iowa. LOCATE enjoys membership from public and private sector professionals involved in traffic engineering, roadway design, transportation planning, and other transportation specialties.

LOCATE was founded nine years ago to promote transportation engineering within our area and cultivate professional knowledge amongst our members. As in every past year, LOCATE hosted and participated in conferences, meetings, and community functions to accomplish its founding purpose.

Our Making a Difference teen driver safety program continues to present to area high schools. We co-sponsored the ninth annual ASCE/LOCATE Transportation Conference with the Nebraska section of ASCE, as well as co-sponsoring the second annual Heartland Active Transportation Summit (HATS), which is organized by Metropolitan Area Planning Agency. We co-hosted an annual joint meeting with the Eastern Nebraska chapter of NSPE as well as an annual joint meeting and meet-and-greet with the University of Nebraska ITE student chapter. Our activities are listed on our chapter website: http://sites.google.com/site/locatechapter/home

Membership
The chapter membership continues to hold steady in comparison to the last few years. Maximum participation in chapter meetings is maintained by alternating meeting locations between Lincoln and Omaha/Council Bluffs. **Making a Difference Project**

In response to a 2008 challenge by MOVITE that encouraged local chapters to find ways to “make a difference” in their communities, LOCATE developed an outreach program to educate local area high school students regarding safe choices when driving. The goal of the program is to discuss safe driving choices with teens that are either beginning to drive or have just begun driving. By introducing these topics to drivers at a young age, we hope to help them form good driving habits and raise their awareness regarding the various consequences associated with poor choices behind the wheel.
Currently, the program is run and maintained by volunteers within LOCATE. Mark Lutjeharms continues to organize MAD speaking engagements in Lincoln while Austin Yates, who has been the Omaha coordinator since the program’s inception, passed the torch this year to Matt McLaughlin. Coordinators update the various topics, trends, and other useful tools we communicate in our message to students. The content of the message is focused on making positive choices behind the wheel with regard to seat belt use, distractions, and impairment. Our presentations make use of data, facts, videos and activities to keep the audience’s attention. In addition, these things are presented with an engineering “spin” to further distinguish the program from other safety presentation that they may hear.

Through these efforts the program continues to receive a warm reception by teachers, students and administrators. On many occasions, speakers received positive feedback from audience members and teachers including assurances that their behavior when driving will change as a result of the presentation.

This year, the Making a Difference Campaign updated its presentation material. Lunch-training sessions were held during the 2013 summer to get volunteers up to speed (new and old) on the MAD material. As a result, the program had its best semester ever for the fall semester (in both Lincoln and Omaha), and the best year since the program’s inception.

In addition, the program received a new set of drunk goggles from the Nebraska Office of Highway Safety. While the program had an outstanding year, its potential continues to be limited not by students
or schools, but by presenters. In addition, the program is looking to replace the other set of its drunk goggles.

**Leadership**

Elections for our 2013 officers were held in late November: the positions of Treasurer and Affiliate Director were up for election. This process was again administered through Elections On-Line, the same vendor used by MOVITE and ITE for their elections. Elections On-Line again proved to be efficient and successful. The 2014 LOCATE Officers include:

- **President**: Austin Yates
- **Vice President**: Bryan Guy
- **Secretary**: Mike Forsberg
- **Treasurer**: Chris Rolling
- **Affiliate Director**: Lonnie Burklund
- **Director of Education**: Dr. Anuj Sharma
- **Past President**: Ryan Huff

**Board Activities**

The Board of Directors met four times throughout 2013 to coordinate Chapter activities. Meeting agendas for each of the meetings is available in the Appendix. Among all the events LOCATE conducted, the following indicates activities or items new in 2013.

**Professional Development Hours**

To increase value to chapter members, beginning in 2013, LOCATE members that attend technical presentations at LOCATE meetings will now receive professional development hours (PDHs). These hours can be put toward PDH requirements to obtain or maintain various licensures or certifications. Members current on dues will receive the PDH certificate in .pdf format via email within a few weeks of the meeting.

**Student Meet and Greet**

This year, the LOCATE Board identified a new activity to promote student interaction with professionals. This activity was advertised as a “Transportation Meet and Greet”, and was held on the 3rd floor of the Whittier Building, on the UNL Campus at the start of the 2013 fall semester. The meet-and-greet began 1 hour prior to the LOCATE Business Meeting, and featured booths/tables manned by professionals from local companies/agencies (similar to a career fair setting). Leading up to the meet-and-greet, UNL Faculty helped promote the event in fall semester classrooms as a way for students to learn more about local companies, employment opportunities, and to establish relationships with local professionals.
Participating professionals were instructed to treat the occasion as a way to:

- Promote their place of employment (verbally, or with handouts, pamphlets, or trinkets)
- Explain the type of work employees can expect to take part in
- Explain employment opportunities or the employment process at their company/agency
- Explain the traits and experiences that help prospective employees stand out (on a resume or during an interview)

Professionals also were instructed to promote the UNL ITE Student Chapter as a way to stand out. Also, students were encouraged to pursue leadership opportunities in the UNL ITE student chapter (and elsewhere).

On the day of the event, 10 different private companies and 3 public agencies were able to participate. In addition, up to fifty civil engineering students attended the event.

At the conclusion of the meet-and-greet, professionals and students adjourned to attend the September Business Meeting, which was held in a nearby meeting room. Students enjoyed a free lunch and further fellowship with LOCATE members.

Participating Companies/Agencies Included:

- Schemmer
- City of Omaha
- City of Lincoln
- Benesch
- Lamp Rynearson & Associates
- JEO
- HDR
- HNTB
- Olsson
- Iteris
- FHU
- Nebraska Department of Roads
- URS

**Finances**

The continuing philosophy of the Board is to fully support expenses through meeting income. This strategy has proven effective once again in 2013. Annual dues were used to support the other operations of the Chapter, such as providing free meeting attendance (including meals) for students. To properly account for these things, chapter finances were tracked and reported at each meeting. At the end of 2013, the Chapter’s account balance was $1,171.20. The Chapter’s Year End balance was down slightly over previous years, partly due to the inaugural Meet & Greet and its associated expenses. However, this was also offset by a share of the profits passed down by MOVITE from its 2012 Meeting in Lincoln that LOCATE sponsored. The final 2013 Treasurer’s Report, listing total expenses, revenues and reserves, is included in the Appendix.

With the 2013 financial information, anticipated future expenses and income were estimated to develop a Chapter budget for 2014. The 2014 Budget was approved by the Board of Direction in early 2014 and is included in the Appendix.
